8. (Unclassified - DDS) H. R. 10076, providing additional reimbursement for moving expenses of government employees within the United States, has been objected to by the Civil Service Commission. The Office of Communications and the DDS had prepared materials so that the Agency could support this bill. Mr. Elmer Henderson, Staff Member of the Committee on Government Operations, indicated that a new bill would soon be introduced replacing H. R. 10076. He also indicated that unless it be introduced soon, there could be no passage during this Congress. Accordingly, this office will hold the case studies prepared by the Office of Communications in anticipation of a new bill being introduced.

## Memorandum

TO : SSA-DD/S

DATE: 27 May 1964

CAS 64-041

FROM : Chief, Administration Staff, OC

SUBJECT: Transfer of Employees within the United States

1. For the past several months the problem of "out of pocket expenses" for Communications personnel being transferred within the United States has been discussed with members of your staff. As a result of my last memorandum Mr. John Warner indicated an interest in the case and is willing to discuss the Agency's position with appropriate officials if some specific cases might be made available to him.

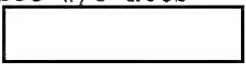

2. Attached are some informal statements prepared by various communicators who have made PCS moves within the United States itemizing their expenses. As you are aware, the sponsor is the only one eligible for per diem during these transfers across country, and you can see from the attachments considerable expenses were incurred by these various Communications personnel.

3. I would appreciate your making this information available to the General Counsel Staff so that they might incorporate it with other material for discussion with their respective liaison contacts on the Hill. The Office of Communications policy has always been that every effort should be made to see that its employees receive everything to which they are legally entitled while working for the government; however, do not believe it is right that persons should pay money out of pocket for expenses incurred in the performance of an assignment with the government or this Agency. Any additional information you might be able to make available to the General Counsel to endorse our cause would be greatly appreciated.
